modules.io.lcd1602.LCD1602.io_read

modules.io.i8275.I8275.
_get_status

```
graph LR; A[modules.io.i8275.I8275.io_read] --> D[modules.io.i8275.I8275._get_status]; B[modules.io.i8276.I8276.io_read] --> D; C[modules.io.i8279.I8279.io_read] --> D; E[modules.io.lcd1602.LCD1602.io_read] --> D;
```

The diagram illustrates a central function, `modules.io.i8275.I8275._get_status`, which is the target of four other functions. These functions are arranged vertically on the left: `modules.io.i8275.I8275.io_read`, `modules.io.i8276.I8276.io_read`, `modules.io.i8279.I8279.io_read`, and `modules.io.lcd1602.LCD1602.io_read`. Blue arrows point from each of these four functions to the central `_get_status` function, indicating a dependency or a call relationship.
