modules.memory.shadow.Shadow
ROMRegion.write

modules.memory.shadow.Shadow
ROMRegion._do_switch

```
graph LR; A[modules.memory.shadow.ShadowROMRegion.io_access] --> D[modules.memory.shadow.ShadowROMRegion._do_switch]; B[modules.memory.shadow.ShadowROMRegion.read] --> D; C[modules.memory.shadow.ShadowROMRegion.write] --> D;
```

The diagram illustrates a dependency or call relationship. On the left, three white rectangular boxes are stacked vertically. Each box contains the text 'modules.memory.shadow.ShadowROMRegion' followed by a specific method name: 'io_access' (top), 'read' (middle), and 'write' (bottom). On the right, there is a single gray rectangular box containing the text 'modules.memory.shadow.ShadowROMRegion._do_switch'. Three blue arrows originate from the right side of each white box and point towards the left side of the gray box, indicating that the three methods on the left are associated with or call the '_do_switch' method on the right.
