

display_test.test_8275

display_test.test_8276

display_test.test_lcd1602

display_test.test_lcd2004

display_test.print_lines

```
graph LR; A[display_test.test_8275] --> D[display_test.print_lines]; B[display_test.test_8276] --> D; C[display_test.test_lcd1602] --> D; E[display_test.test_lcd2004] --> D;
```

The diagram illustrates a set of four test functions on the left, each enclosed in a white box with a black border. These functions are: display_test.test_8275, display_test.test_8276, display_test.test_lcd1602, and display_test.test_lcd2004. Blue arrows originate from the right side of each of these four boxes and point towards a single, larger gray box on the right. This gray box contains the text display_test.print_lines, representing a common output or logging function that all four tests utilize.
