

display_test.test_8275

display_test.test_8276

display_test.dump_char
_bitmap

```
graph LR; A[display_test.test_8275] --> C[display_test.dump_char_bitmap]; B[display_test.test_8276] --> C;
```

The diagram illustrates a flow where two test cases, 'display_test.test_8275' and 'display_test.test_8276', are linked to a common function 'display_test.dump_char_bitmap'. The function is represented by a gray box, while the test cases are in white boxes. Blue arrows indicate the direction of the flow from the test cases to the function.
