

read

```
graph LR; read[read] --> mem[modules.memory.memory_bus.MemoryRegion.contains];
```

The diagram consists of a small gray rectangular box on the left containing the word 'read'. A blue arrow points from the right side of this box to a larger white rectangular box on the right. This larger box has a black border and contains the text 'modules.memory.memory\_bus.MemoryRegion.contains'.

modules.memory.memory  
\_bus.MemoryRegion.contains
