

load_from_string

```
graph LR; A[load_from_string] --> B[_parse]
```

A diagram showing a call from the function `load_from_string` to the function `_parse`. The `load_from_string` node is a gray rectangle on the left, and the `_parse` node is a white rectangle on the right. A blue arrow points from the right side of the `load_from_string` node to the left side of the `_parse` node.

_parse
