

paintEvent

```
graph LR; A[paintEvent] --> B[_rgb565_to_rgb888]
```

A diagram illustrating a function call. On the left, a white rectangular box with a dark border contains the text 'paintEvent'. A blue arrow points from the right side of this box to the left side of a gray rectangular box with a dark border on the right. The gray box contains the text '_rgb565_to_rgb888'.
